

NOTES FROM IAT333 TEAM MEETINGS:

Monday May 16th, 2011:

Today we discussed Team Contract. Mark has updated the [Team Contract/IAT333 Week 1 Google Doc](#) about our finalized version.

Closer to the end of the meeting, we started discussing finding more social groups to use for our cultural probe project. I think we can agree as a group that the idea of the Improv social group would be interesting and different for this project, but to make it fair because Julian may or may not be in our group, we should have a back up social group in mind just in case.

We can further discuss that on the Wednesday meeting after lecture (Wednesday May 18th, 2011)
